SKILLS

Javascript, HTML, CSS, Git, GitHub, React, Restful APIs, Postgres, Node, Express

PROJECTS

Roadie Live / GitHub
A booking and event planning application that provides access to book your favorite local artist to perform at your next event.
UI / UX
- Full-stack React application, includes database with SQL, queries and routes.
- Two different types of user interfaces for both artist and clients
- CSS done with Bootstrap library

Hwitter Live / GitHub
A twitter inspired web application.
- Search feature that lets users search hashtags and look for the post where the hashtags were used
- User authentication by using firebase from Google
- Users are able to create and write their own post
- Bing Api used to get the top 10 trending news according to Bing.

All About the Green GitHub
A digital plant rolodex, plant community forum, and image uploader which identifies the plant.
Project Lead
- App was built in 48hrs during a hackathon
- The app currently uses two types of API's. The first one fetches plant data upon search, and the second api identifies the plant which image is being uploaded.

EXPERIENCE

The Wright Fit   *2015 - present*
Front-desk receptionist   *New York, NY*
- Selected by facility manager to train and mentor new front-desk receptionists in the company's established service methods and standards.
- Communicated upwards of 100 customers via phone and online to identify their needs and help find a positive solution.

New York Red Bulls   2017 - 2019
Academy Intern, Developmental Soccer Coach   *Harrison, New Jersey*
- Provided operational support to the Academy Administrator such as game-day filming equipment, game day liaison for visitors teams and parents of the players
- Assisted with in-game responsibilities at Academy and United Soccer League games
- Recorded and analyzed player data for the teams coaching staff and management teams
- Supported academy training sessions with equipment and session planning
